### Exceptional workability and

# environmental performance

# Powerful and environmentally friendly

- EU Stage V engine
- · Adjustable idle shutdown
- Komatsu fuel-saving technology

#### **First-class comfort**

- Fully air-suspended operator station
- · Low-noise design
- · Widescreen monitor

#### **Maximised efficiency**

- · Increased productivity
- Built-in versatility and superior productivity
- Enhanced engine management
- Improved hydraulic efficiency
- Komatsu Integrated Attachment Control (KIAC)

#### **Safety first**

- Komatsu SpaceCab™
- KomVision surround view system
- Neutral position detection system

#### Quality you can rely on

- Komatsu-quality components
- Extensive dealer support network

#### **Komtrax**

- Komatsu Wireless Monitoring System
- 4G mobile communications
- Integrated communication antenna
- Increased operational data and reports

A maintenance program for Komatsu customers

### PC210-11

#### **Higher productivity**

The PC210-11 is quick and precise. It features a powerful Komatsu EU Stage V engine, Komatsu's Closed Center Load Sensing (CLSS) hydraulic system and first-class Komatsu comfort to provide a fast response and unrivalled productivity for its class.

# Komatsu fuel-saving technology

Fuel consumption on the PC210-11 is lower by up to 6%. Engine management is enhanced. The variable speed matching of the engine and hydraulic pump and a viscous fan clutch guarantee efficiency and precision during single and combined movements.

#### Adjustable idle shutdown

The Komatsu auto idle shutdown automatically turns off the engine after it idles for a set period of time. This feature can easily be programmed from 5 to 60 minutes, to reduce unnecessary fuel consumption and exhaust emissions, and to lower operating costs. An Eco-gauge and the Eco guidance tips on the cab monitor further encourage efficient operations.

# Powerful and environmentally friendly

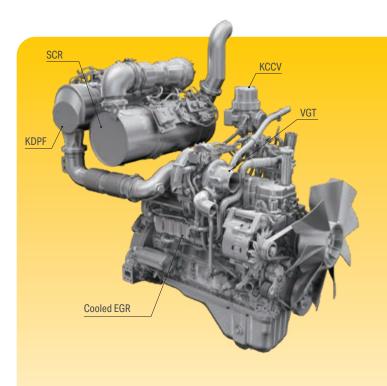

#### **Komatsu EU Stage V**

The Komatsu EU Stage V engine is productive, dependable and efficient. With ultra-low emissions, it provides a lower environmental impact and a superior performance to help reduce operating costs and lets the operator work in complete peace of mind.

#### **Heavy-duty aftertreatment**

The aftertreatment system combines a Komatsu Diesel Particulate Filter (KDPF) and Selective Catalytic Reduction (SCR). The SCR injects the correct amount of AdBlue® into the system at the proper rate to break down NOx into water ( $H_2O$ ) and non-toxic nitrogen gas ( $N_2$ ). NOx emissions are reduced by 80% vs. EU Stage IIIB engines.

#### High-Pressure Common Rail (HPCR)

To achieve complete fuel burn and lower exhaust emissions, the heavy-duty High-Pressure Common Rail fuel injection system is computer controlled to deliver a precise quantity of pressurised fuel into the redesigned engine combustion chamber by multiple injections.

#### Exhaust Gas Recirculation (EGR)

Cooled EGR is a technology well-proven in current Komatsu engines. The increased capacity of the EGR cooler now ensures very low NOx emissions and a better engine performance.

#### Komatsu Closed Crankcase Ventilation (KCCV)

Crankcase emissions (blow-by gas) are passed through a CCV filter. The oil mist trapped in the filter is returned back to the crankcase while the filtered gas is returned to the air intake.

#### Variable Geometry Turbo (VGT)

The VGT provides optimal airflow to the engine combustion chamber under all speed and load conditions. Exhaust gas is cleaner, fuel economy is improved while machine power and performance are maintained.

#### A wide choice of options

Two optional attachment lines are available and 15 attachment memory settings are simply customised. Combined with a standard-fit hydraulic quick coupler power circuit, it's easier than ever to switch working styles. With a choice of arms and undercarriages, you can configure the PC210-11 to match specific demands for transport, working envelope or duty.

#### 6 working modes

The PC210-11 delivers the power required with the lowest fuel usage. 6 working modes are available: Power, Lifting/Fine Operation, Breaker, Economy, Attachment Power and Attachment Economy. The operator can ideally balance the Economy mode between power and economy to match the work at hand. The oil flow delivered to hydraulic attachments is also adjustable directly on the class-leading widescreen monitor panel.

Two-piece boom

Two optional hydraulic lines to mount a variety of attachments

Komatsu Integrated Attachment Control (KIAC) for up to 15 tool presets for oil flow and pressure

Versatility at your fingertips: select the perfect setting for each job

### First-class comfort

#### **Increased comfort**

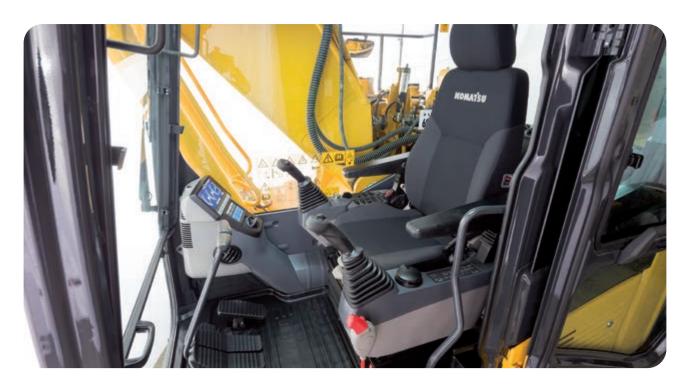

In the wide Komatsu SpaceCab<sup>TM</sup>, a standard air-suspended high-back seat, heated for improved comfort and with fully adjustable armrests, is the centre of a comfortable and low-fatigue working environment. High visibility and ergonomic controls further assist to maximise the operator's productivity.

# Perfect operator convenience

In addition to the standard radio, the PC210-11 has an auxiliary input for connecting external devices and play music through the cab speakers. Two 12-volt power ports are also incorporated in the cab. Proportional controls are fitted as standard for safe and precise operation of attachments.

#### Low-noise design

Komatsu crawler excavators have very low external noise levels and are especially well-suited for work in confined spaces or urban areas. The optimal usage of sound insulation and of sound absorbing materials helps to make noise levels inside the cab comparable to those of an executive car.

Convenient, ergonomic and precise control: joysticks with proportional control button for attachments

Plenty of storage room, a hot and cool box, a magazine box and a cup holder

Armrest with simple height adjustment

#### Safe maintenance

Thermal guards around high temperature areas of the engine, protected fan belt and pulleys, a pump/engine partition that prevents hydraulic oil from spraying onto the engine, a wide catwalk and exceptionally sturdy handrails: in Komatsu tradition, the highest safety level is provided for a fast and smooth maintenance.

#### Komatsu SpaceCab™

The ROPS cab has a tubular steel frame and provides high shock absorbency, impact resistance and durability. The seat belt is well designed to keep the operator in the safety zone of the cab in the event of a rollover. Optionally the cab can be fitted with a Falling Object Protective System (FOPS) with openable front guard.

#### KomVision

KomVision machine visibility gives the operator a constant clear view of the safety zone around the machine. This allows the operator to focus on the work at hand even in low light conditions.

#### An evolutionary interface

Helpful information is now easier than ever to find and understand with the upgraded monitor interface. An optimal main screen for the ongoing work can be selected simply by pressing the F3 key.

#### **Lower operating costs**

Komatsu ICT contributes to the reduction of operating costs by assisting to comfortably and efficiently manage operations. It raises the level of customer satisfaction and the competitive edge of our products.

#### Widescreen monitor

Conveniently customisable and with a choice of 26 languages, the widescreen monitor with simple switches and multifunction keys gives fingertip access to a large range of functions and operating info. The rear camera view and an AdBlue® level gauge are now incorporated into the default main screen.

Quick view on the operation logs

With KomVision, various camera view options are available whilst maintaining constant "birdview" from above the machine

Operator identification function

### Information & communication technology

#### Knowledge

You get quick answers to basic and critical questions about your machines – what they're doing, when they did it, where they're located, how they can be used more efficiently and when they need to be serviced. Performance data is relayed by wireless communication technology (satellite, GPRS or 4G depending on model) from the machine to a computer and to the local Komatsu distributor – who's readily available for expert analysis and feedback.

#### Convenience

Komtrax enables convenient fleet management on the web, wherever you are. Data is analysed and packaged specifically for effortless and intuitive viewing in maps, lists, graphs and charts. You can foresee eventual maintenance issues and required spare parts, and troubleshoot a problem before Komatsu technicians arrive on site.

#### The way to higher productivity

Komtrax uses the latest wireless monitoring technology. Compatible on PC, smartphone or tablet, it delivers insightful and cost saving information about your fleet and equipment, and offers a wealth of information to facilitate peak machine performance. By creating a tightly integrated web of support it allows proactive and preventive maintenance and helps to efficiently run a business.

#### **Power**

The detailed information that Komtrax puts at your fingertips 24 hours a day, 7 days a week gives the power to make better daily and long-term strategic decisions – at no extra cost. Problems can be anticipated, maintenance schedules customised, downtime minimised and machines kept where they belong: working on the jobsite.

### **Easy maintenance**

#### **Central service points**

Komatsu designed the PC210-11 with centralised and conveniently located service points to make necessary inspections and maintenance quick and easy.

#### **Komatsu Care**

Komatsu Care is a maintenance program that comes as standard with your new Komatsu machine. It covers factory-scheduled maintenance, performed with Komatsu Genuine parts by Komatsu-trained technicians. Depending on your machine's engine, it also offers extended coverage of the Komatsu Diesel Particulate Filter (KDPF) and of the Selective Catalytic Reduction (SCR). Please contact your local Komatsu distributor for terms and conditions.

### Long-life oil filters

The Komatsu Genuine hydraulic oil filter uses high-performance filtering material for long replacement intervals, which significantly reduces maintenance costs.

#### AdBlue® tank

For simple access, the AdBlue® tank is installed on the front stairway.

#### Flexible warranty

When you purchase Komatsu equipment, you gain access to a broad range of programmes and services that have been designed to help you get the most from your investment. For example, Komatsu's Flexible Warranty Programme provides a range of extended warranty options on the machine and its components. These can be chosen to meet your individual needs and activities. This programme is designed to help reduce total operating costs.

Basic maintenance screen

Aftertreatment device regeneration screen for the KDPF

AdBlue® level and refill guidance

### Quality you can rely on

#### **Komatsu-quality**

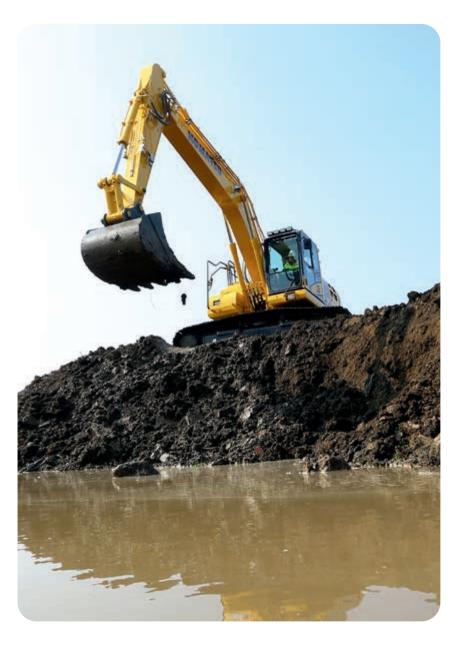

With the latest computer techniques and a thorough test programme, Komatsu produces equipment to meet your highest standards. All major components of the PC210-11 are designed and directly manufactured by Komatsu, and essential machine functions are perfectly matched for a highly reliable and productive excavator.

#### **Rugged design**

Maximum toughness and durability are the cornerstones of Komatsu's philosophy – along with safety and top class customer service. Single piece plates and castings are used in key areas of the machine's structure for good load distribution. Highly durable rubbing strips on the underside of the arm protect the structure against impact damage.

# Extensive support network

The extensive Komatsu distribution and dealer network is standing by to help keep your fleet in optimum condition. Customised servicing packages are available, with express availability of spare parts, to make sure that your Komatsu equipment continues to perform at its peak.

Durable and reliable undercarriage design for maximum protection

Cast boom foot and single piece boom plates

# **Specifications**

#### **Engine**

Liigiiie	
Model	Komatsu SAA6D107E-3
Туре	Common rail direct injection,
	water-cooled, emissionised, turbocharged, after-
	cooled diesel
Engine power	
at rated engine speed	2000 rpm
ISO 14396	123 kW / 165 HP
ISO 9249	123 kW / 165 HP
(net engine power)	
No. of cylinders	6
Bore × stroke	107 × 124 mm
Displacement	6.691
Air filter type	Double element type with monitor panel dust
	indicator and auto dust evacuator
Cooling	Suction type cooling fan
	with radiator fly screen
Fuel	Diesel fuel, conforming to EN590 Class 2/Grade D.
	Paraffinic fuel capability (HVO, GTL, BTL),
	conforming to EN 15940:2016

#### Hydraulic system

Туре	HydrauMind. Closed-centre system with load sensing and pressure compensation valves
Additional circuits	2 additional circuits with proportional control can be installed
Main pump	2 variable displacement piston pumps supplying boom, arm, bucket, swing and travel circuits
Maximum pump flow	475 l/min
Relief valve settings	
Implement	380 kg/cm <sup>2</sup>
Travel	380 kg/cm <sup>2</sup>
Swing	295 kg/cm <sup>2</sup>
Pilot circuit	33 kg/cm <sup>2</sup>

#### Service refill capacities

Fuel tank	400 I (PC210NLC: 325 I)
Radiator	30.71
Engine oil	23.11
Swing drive	6.51
Hydraulic tank	132
Final drive (each side)	5.01
AdBlue® tank	23.11 (PC210NLC: 18.81)

#### Swing system

Туре	Axial piston motor driving through planetary double reduction gearbox
Swing lock	Electrically actuated wet multidisc brake integrated into swing motor
Swing speed	0 - 12.4 rpm
Swing torque	65 kNm

#### **Drives and brakes**

Steering control	2 levers with pedals giving full independent control of each track
Drive method	Hydrostatic
Travel operation	Automatic 3-speed selection
Gradeability	70%, 35°
Max. travel speeds	
Lo / Mi / Hi	3.0 / 4.1 / 5.5 km/h
Maximum drawbar pull	20600 kg
Brake system	Hydraulically operated discs in each travel motor

#### **Undercarriage**

Construction	X-frame centre section
	with box section track frames
Track assembly	
Туре	Fully sealed
Shoes (each side)	45 (PC210), 49 (PC210LC/NLC)
Tension	Combined spring and hydraulic unit
Rollers	
Track rollers (each side)	7 (PC210), 9 (PC210LC/NLC)
Carrier rollers (each side)	2

#### **Environment**

Engine emissions	Fully complies with EU Stage V exhaust emission regulations
Noise levels	
LwA external	100 dB(A) (2000/14/EC Stage II)
LpA operator ear	67 dB(A) (ISO 6396 dynamic test)
Vibration levels (EN 12096:1997)	
Hand/arm	$\leq$ 2.5 m/s <sup>2</sup> (uncertainty K = 0.49 m/s <sup>2</sup> )
Body	$\leq$ 0.5 m/s <sup>2</sup> (uncertainty K = 0.24 m/s <sup>2</sup> )
Contains fluorinated greenhouse gas Quantity of gas 0.9 kg, CO₂ equivalen

## Standard and optional equipment

#### **Engine**

Engino .	
Komatsu SAA6D107E-3 turbocharged common rail direct injection diesel engine	•
EU Stage V compliant	•
Suction type cooling fan with radiator fly screen	•
Automatic engine warm-up system	•
Engine overheat prevention system	•
Fuel control dial	•
Auto-deceleration function	•
Adjustable idle shutdown	•
Engine key stop	•
Engine ignition can be password secured on request	•
Alternator 24 V / 90 A	•
Starter motor 24 V / 5.5 kW	•
Batteries 2 × 12 V / 180 Ah	•

#### **Hydraulic system**

Electronic closed-centre load sensing (E-CLSS) hydraulic system (HydrauMind)	•
Pump and engine mutual control (PEMC) system	•
6-working mode selection system; Power mode, Economy mode, Breaker mode, Attachment Power and Attachment Economy mode, and Lifting/Fine Operation mode	•
PowerMax function	•
PPC wrist control levers for arm, boom, bucket and swing, with sliding proportional control for attachments and 3 auxiliary buttons	•
Prepared for hydraulic quick-coupler	•
Additional hydraulic functions	0
Komatsu Integrated Attachment Control (KIAC)	0

#### **Undercarriage**

Track roller guards	•
Track frame under-guards	•
500, 600, 700, 800, 900 mm triple grouser shoes	0
Full length track roller guards	0

#### **Drives and brakes**

Hydrostatic, 3-speed travel system with automatic shift and planetary gear type final drives, and hydraulic travel and parking brakes	•
PPC control levers and pedals for steering and travel	•

#### Cabin

Reinforced safety SpaceCab™; highly pressurised and tightly sealed hyper viscous mounted cab with tinted safety glass windows, large roof window with sun shade, pull-up type front window with locking device, removable lower window, front window wiper with intermittent feature, sun roller blind, cigarette lighter, ashtray, luggage shelf, floor mat Heated, high-back air-suspended seat with lumbar support, console mounted height adjustable arm rests, and retractable seat belt Automatic climate control system 12 / 24 Volt power supplies Beverage holder and magazine rack Hot and cool box Radio (AM/FM) Auxiliary input (MP3 jack) 0 Lower wiper Rain visor (not with OPG) DAB+ digital radio w. auxiliary input (MP3 jack)

#### **Service and maintenance**

Automatic fuel line de-aeration	•
Double element type air cleaner with dust indicator and auto dust evacuator	•
Komtrax – Komatsu wireless monitoring system (4G)	•
Komatsu Care – a maintenance program for Komatsu customers	•
Multifunction video compatible colour monitor with Equipment Management and Monitoring System (EMMS) and efficiency guidance	•
Toolkit	•
Service points	•
Automatic greasing system	0

#### **LED lighting system**

Working lights: 2 revolving frame, 1 boom (l.h.)	•
Additional working lights (#1): 2 cab roof (front), 1 cab roof (rear), 1 boom (r.h.), 1 counterweight, beacon	0
Additional working lights (#2): 4 cab roof (front), 1 cab roof (rear), 1 boom (r.h.), 1 counterweight, 2 boom cylinders, 2 revolving frame (l.h. + r.h.), beacon	0

#### Safety equipment

KomVision surround view system	•
Electric horn	•
Overload warning device	•
Audible travel alarm	•
Boom safety valves	•
Large handrails, rear-view mirrors	•
Battery main switch	•
ROPS compliant to ISO 12117-2:2008	•
Emergency engine stop switch	•
Seat belt caution indicator	•
Neutral position detection system	•
Arm safety valve	•
OPG Level II front guard (FOPS), hinged type	0
OPG Level II top guard (FOPS)	0

A wide range of buckets and attachments is available. Your Komatsu distributor is ready to assist you with the selection of suitable options.

#### Work equipment

Mono boom	0
Two-piece boom	0
Bucket linkage with lifting eye	0
2.4 m; 2.9 m arms	0
Komatsu buckets	0
Komatsu breakers	0

#### Other equipment

Standard counterweight	•
Remote greasing for swing circle and pins	•
Electric refuelling pump with automatic shut-off function	•
Biodegradable oil for hydraulic system	0
Customised paint	0

Further equipment on request

• standard equipment O optional equipment

This specification sheet may contain attachments and optional equipment that are not available in your area. Please consult your local Komatsu distributor for those items you may require.
